# How to teach kids about money

**Most parents want to teach their kids about money but just don't know where to start. This is often because when young they were never taught about money themselves.**

**What we learn about money as kids, and the habits formed, has a massive impact on how we subsequently manage money as adults and in turn, our mental health wellness.**

## **This workshop will cover:**

- ✓ The importance of teaching kids, as young as 4 years old, about money
- ✓ How to teach kids the different uses of money in an engaging way
- ✓ Pocket Money – The most powerful financial education tool in the world!
- ✓ 3 essential money habits to teach your kids
- ✓ How to teach your kids about the stock market

---

Better with Money was set up to reduce financial misery and confusion in the UK. We aim to bring money matters to life in an accessible and interesting way, delivered in the workplace to employees helping them think clearly about money so they are less stressed.

Blue Tree Savings focuses on helping parents teach their kids about money. As well as running workshops for companies, they also write a weekly blog covering a new money related topic to teach kids and have their own digital piggy bank. For more information on Blue Tree Savings, please visit [www.bluetreesavings.com](http://www.bluetreesavings.com)

**We promise not to sell your staff any other services or products. Our focus is to deliver independent employee education for positive change and financial wellbeing.**
